D. Rodriguez  
Molalla River, Oregon

We provide professional development for elementary ELD teachers. Please call for a flyer to find out about our upcoming workshops in your area or to schedule an inservice for your district or school.

Our in-service bridges that gap between theory and practice where most teachers struggle. Our specialty is bringing the how-to, hands-on strategies that practicing teachers need to reach demanding academic and language standards.

These hands-on workshops provide the how-tos for targeted, systematic and effective instruction of English Learners (EL's). This includes:

- A focus on strategies and activities in oral fluency and vocabulary development
- A focus on study units for topic vocabulary combined with grammatical form and function
- A presentation of persistent errors in English and how to form foundational units that address these persistent errors
- Make and Take time: Teachers hear it, see it and do it.

These are workshops by elementary teachers for elementary teachers. This is what our participants say:

"Practical ideas: excellent presentation from people really in the field."

"Keep doing what you are doing! What an asset for ELD teachers in Oregon!!"

"Meets us exactly where we are and what our needs are."
