English Language Development for English Newcomers - Learning English from the very first day!

“Help! I have English Newcomers in my class.” Look no further, help is here!

This workshop focuses on the language skills, grammar and vocabulary that English Newcomers (K-5) need to build a strong beginning English language base. Using a series of Newcomer ELD units that focus on projects and activities that build those strong language skills, teachers will be guided through each unit. As each unit is presented teachers will assemble their own portfolio of the activities and projects to take back to school. Teachers will receive a CD containing each unit in this series.
